TOTAL SURFACE CONTROL
The Ultimate Water Management System

The Ski Nautique is the cornerstone of the Nautique lineup and in 1997 debuted the marketplace with an all NEW hull design designated as Total Surface Control (TSC). TSC is a method of directing water over the wetted surface of the hull so as to work with the water, rather than against it. Correct Craft engineers and designers, through countless hours of research and testing, developed this system and together with the aid of advanced manufacturing techniques, produced the all new hull design of the 1997 Ski Nautique — leading the towboat industry into the 21st Century.

TSC incorporates major design changes such as modified reverse chines, streamlined and tapered bow keel, dramatically enhanced spray relief pockets, tapered transom, a new keel relief pocket and an innovative progressive pitch, 4-bladed propeller. Combine these dramatic hull design changes with cutting-edge manufacturing techniques and add them to over 70 years of boatbuilding experience and you have...a redefined No Wake Zone...a remarkably smooth ride...and a wake no one else can equal. It's the dawning of a new era in tournament towboat hull design.

Air Nautique

The 1998 Air Nautique is a wakeboarder's dream come true. With bold graphics, a taller tow pylon and optional Flight Control Tower, the Air Nautique becomes the ultimate launch vehicle. Add to it Correct Craft's Launch Control System and you have completed the wish list of any wakeboarder riding the waters of the world.

.....	88"	(2.23m)
.....	23"	(.58m)
Capacity	28 gal.....	(106l)
Max. Weight	2,250 lbs ...	(1,022kg)

Ski Nautique 176

Born right out of the tradition of its big sister Ski Nautique, the Ski Nautique 176 at 17'6" offers thoroughbred Nautique performance but in a smaller package. Great slalom wakes with a completely redesigned stern seat. Nimble, quick, powerful, fast. It's a Nautique through and through.

Air Tique

If you're just getting started in wakeboarding, the new Air Tique from Correct Craft may be part of your future. The Air Tique is a special graphic edition of the Ski Nautique 176. The stern seat can be lifted up and placed on port and starboard ledges that support the stern seat converting it to a sun deck as well as allowing space for a water ballast system to increase the size and shape of the wake for a great wakeboarding set.

Ski Nautique

Within one year more records and personal bests have been set behind this phenomenal boat than any other tow boat. On its very first tournament a new World Record was set in Women's Slalom by Kristi Johnson. National, regional and personal bests were soon to follow. Whether you're a superstar or beginning skier, the 1998 Ski Nautique with Total Surface Control will give you the ultimate experience. Ski Nautique is the world's #1 choice.

Ski Nautique Open Bow

How do you combine the ultimate waterski wake with the need for more people? The Ski Nautique Open Bow is the answer. The Ski Nautique Open Bow combines the phenomenal performance found only with Ski Nautique's TSC, but also additional space and storage for two people in the bow. Correct Craft's unique bow configuration provides more seating as well as abundant storage. The Ski Nautique Open Bow offers optimum skiing performance as well as taking the whole family along for the ride.

Sport Nautique

Sport Nautique continues to emerge as the best all-around family and watersport runabout on the market. The Sport Nautique can be converted to its sister Air Nautique graphics package or specify this craft with classic Sport Nautique logo. Sport Nautique offers a host of options including a Launch Control System shown here with taller tow pylon. Sports Nautique's unique trunk configuration provides an abundance of storage. The shape of the wake found behind the Sport Nautique provides the best ride for skiers or riders.
