## Dear Friends:

When my grandfather, W.C. Meloon, founded our company in 1925, the product line consisted of outboard racing boats, rowboats and yes ... even a few motorized toboggans. Over the years, our family has continued to build upon the foundation and vision of our heritage, incorporating the same exacting business and Christian principles that have taken our company through the best and most challenging of times.

Today, our 74-year-old company stands as America's oldest family-owned boat building business. Our product line represents four generations of uncompromised focus with the goal of manufacturing the highest quality inboard powerboats in the world. While we are best recognized for our Nautique line of water ski and wakeboard boats, our history encompasses a rich array of products over the years, including some 406 storm boats in a single month for the military during World War II; to 36,000 boats for the government; luxurious mahogany inboards; fishing boats; sporty runabouts and cruisers.

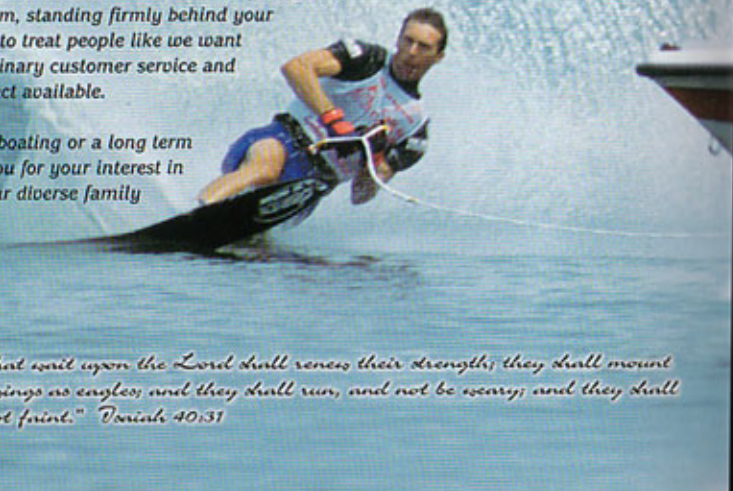

We believe that when you invest in a Nautique, you receive much more than the product itself. You have my personal commitment and that of the entire Meloon Family, along with our entire team, standing firmly behind your investment. Our corporate philosophy is to treat people like we want to be treated and to deliver both extraordinary customer service and the most technologically advanced product available.

Whether you are a newcomer to boating or a long term enthusiast, I want to personally thank you for your interest in our boats and hope to welcome you to our diverse family of owners throughout the world!

Warm regards,

Walter N. Meloon  
President/CEO

*"But they that wait upon the Lord shall renew their strength; they shall mount up with the wings as eagles; and they shall run, and not be weary; and they shall walk, and not faint." Psalm 40:31*

**F**or 74 years, one boat company and one product line has clearly dominated the inboard towboat industry: Correct Craft. In the world of watersports, its Nautique brand name is legendary, representing the finest design and construction in the marketplace and several generations of proven industry leadership, plus attention to long-term customer satisfaction. When you ride behind or drive a Nautique, prepare to experience the ultimate in state-of-the-art marine technology as you thrill to the same wake as many of the world champions in the sports of water skiing and wakeboarding!

It's no wonder that these are the exclusive towboats demanded by world's most prestigious tournaments: The Masters; the World Championships (since 1993 and in 1999 - Milan, Italy); the international Pan Am Games (1995 and 1999 - Winnipeg, Canada); and the Moomba Masters - 1999, Melbourne, Australia. Nautiques are the choice of the world's premiere professional show skiers as well and are featured exclusively at all SeaWorld Adventure Parks in North America. And while the selection by these world class organizations reflects the obvious superiority of Nautique product, the real testimony comes from the thousands of serious, avid recreational enthusiasts in more than 45 countries who describe their boat of choice in one universal word:

**Nautique!**

## Our Product

# ...THE BEST IN

**Product Leadership.** It's what puts Correct Craft in a league of its own. With countless industry "firsts" to its credit, Nautique owners have come to expect the best built, best designed boats in the business, bar none.

The company introduced the world's first dedicated boat designed specifically for wakeboarding. It premiered the industry's original **Flight Control Tower**. **Launch Control System**. The revolutionary **Total Surface Control** and **Total Wake Control** hulls. It incorporated high tech laser alignment into its manufacturing process to finesse world class fit. Correct Craft debuted its **Transferable Lifetime Warranty**, allowing owners to pass along the benefits within 5 years to a second owner. It introduced a national **Nautique Lease Advantage program**.

Its worldwide launch of **Correct Craft Cruise**, an automotive-style cruise control system that allows the novice to drive like the pros was met with enormous consumer enthusiasm. Other notable firsts include the introduction of **Rack and Pinion steering**; **Power-Plus Transmission**; the **Inverta-flow** and **Hull Hugger muffler**; **single exhaust**; **spray relief pockets**; the **Delta pad keel**; a **tapered transom**; **fully removable dash panel**; **Isodamp CN vibration dampening material**; **tracking fins**; and its very popular **gullwing observer's seat**.

Throughout its tenure, product leadership has become an established hallmark associated with Correct Craft. From its early days when the company partnered with PCM in the development of marine engine technology, to the introduction of the world's first legitimate water ski boat and later, the original tow pylon, Correct Craft has - and continues to - lead the inboard industry in design, innovation and state-of-the-art manufacturing technology.

Rich burlwood dash pod is fully removable (option).

Revolutionary hull designs include the **Total Surface Control (Left)** and **Total Wake Control (Right)**. This advanced technological breakthrough incorporates numerous integrated hull innovations that work together to produce enhanced performance, handling and ride, along with controlled wake characteristics for specific skiing or wakeboarding application.

Below: Luxurious, well-appointed cockpits are a Nautique tradition, as evidenced by the Super Sport shown.

## Our People

Correct Craft embraces a broad mix of people from all walks of life ... from our World Headquarters administrative, manufacturing and marketing team, to the world's most highly trained dealers, to the members of our professional waterski and wakeboard teams, to our friends and associates at waterparks around the world, to highly valued vendors, and finally, to our loyal boat owners ... this is our family, our people.

Since one of Correct Craft's primary goals is to promote family togetherness, it's not surprising that when you become a Nautique owner, you really do become part of the company's extended family. In fact, each year, over 7,000 people participate in Correct Craft Owner Reunions held at four SeaWorld Adventure Parks around the country for a full day of fun, festivities, friendship and exciting boat displays. The Nautique Owners Association (NOA) offers many benefits including special event discounts, Fashion Nautique, Nautique News publications and other programs.

**We hope you'll become part of the family ... and join the fun!**

Below: A familiar Nautique Motor Coach representing NOA travels throughout North America.

Above: Some 7,000 Correct Craft owners gather each year at SeaWorld Adventure Parks for reunions, as part of the popular Nautique Owners Association.

Left: World class athletes demand the Nautique difference. Left, World Slalom and 10-Time Masters Champion Andy Mapple of Great Britain prepares for fun, with fellow world-class competitors including Brenda Baldwin, Curtis Sheers and Emma Sheers.

Right: NBA Center Rony Seikaly, originally of Greece, is a member of NOA and a proud Super Sport owner.

Ski Nautique

Skier: World Slalom Champion  
Andy Mapple

Above & Right: The full-width stern bench area opens to reveal storage below, plus offers a center walk-over step for easy access to or from the swim platform.

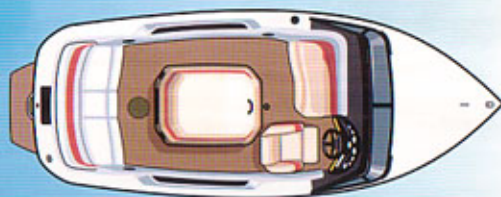

The Ski Nautique sports a beautiful profile at any angle!

**"From A Skier's Perspective,  
This Is Water Skiing Nirvana"**  
- Trailer Boats Magazine

Forget the dated preconception of the classic, best-selling Ski Nautique. Today's company flagship has been completely updated and is perhaps the most intelligent water ski boat the world has ever seen.

Veteran skier and coach Zenon Bilas, testing the Ski Nautique for Trailer Boats Magazine, reported: "At the end of my test ... I asked myself: What is left to improve? For ski boat aficionados, the immediate challenge will be to figure out which aspect ... could possibly stand for improvement. It's a question that has left me scratching my head."

Ski Nautique continues to dominate the inboard water ski market, featuring important innovations that clearly distinguish it from the masses: the Total Surface Control hull for the most minimal of wake conditions; a beautifully appointed cockpit featuring a removable, full-width stern bench with center drop seat for easy access to the transom; gullwing observers seat; a thickly-upholstered bucket seat for the driver; two coolers and plenty of on-board storage. Optional burlwood dash panel with bottom-swing tach/hour meter, dual Airguide® speedometers, Teleflex® instrumentation and Clarion® AM/FM stereo/cassette player are within fingertip reach and designed to offer excellent visibility.

Pro  
Air Nautique

Team Rider: Gregg Neqrason

The wake characteristics are spectacular for all your wakeboarding fun ... Correct Craft's Launch Control System lets you customize to fit your own special needs!

Need more room for your boards? Check out the optional tower bracket, available through your authorized Correct Craft dealer!

It's BIG like everything else about this model! The aft storage compartment runs virtually the full width of the boat, offering 14 cubic feet of trunk space accommodations.

## Only One Ride Takes You There ...

*Pro Air Nautique. The first and foremost truly legitimate boat designed exclusively for wakeboarding.*

*Correct Craft was the first to really listen to and understand the needs of avid riders. Taking its proven technology to create soaring new heights, company engineers re-thought the Total Surface Control hull with wakeboard criteria in mind and Total Wake Control was born: a bottom built for achieving big air! Correct Craft was the first to introduce its removable Flight Control Tower, a powerful platform that raises the tow rope 80 inches above the waterline and allows for a radically unobstructed view of the rider. Another first ... the Launch Control System featuring concealed ballast tanks and water level capacity gauges to allow customized manipulation of wake size.*

*When you're ready to hoochie glide, flip out, try a raley or just throw a tantrum, Pro Air Nautique is the only way to go!*

Length without Platform	21'	(6.4m)
Length with Platform	22' 8 1/2"	(6.92m)
Beam	91"	(2.31m)
Draft	24"	(0.61m)
Fuel Tank Capacity	30 Gal.	(113 ltr.)
Ballast Tank Capacity (Approx. 400 lbs.)	50 Gallons	(189 ltr.)
Approx. Weight (w/o Ballast)	2700 lbs.	(1,227 kg)
Height (waterline to top of FCT-erected)	83"	(2.1 m)
Height (waterline to top of FCT-folded)	58"	(1.47 m)
Lifting Rings (dist. between centers)	19' 8.5"	(6.0m)

Note: Coast Guard Capacity (1190 lbs.) includes additional weight, including people, fuel, ballast, FCT

*Sport Nautique*

12

**Above:** Easily raise the passenger console and discover massive dry storage!

**Above & Right:** More storage! Check out the transom locker that houses your boards and gear, plus doubles as a sunpad, along with the spacious rear bench seat!

*New for 1999 is the fabulous walk-through windshield and dash that opens to a very large bow with roomy twin loungers. An optional fill cushion creates a popular forward playpen!*

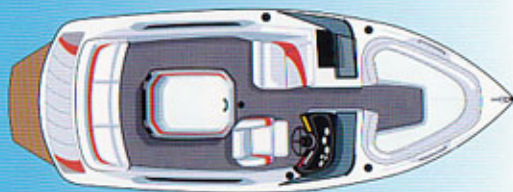

## **S**wing Into Action With the Sport Nautique!

Load up your friends and family and discover the fun and excitement of boating! The Sport Nautique, with its sleek and sexy style lines, offers the ultimate getaway package for weekends of adventure.

Check out the posh cockpit and spacious forward bow with walk-through, featuring luxurious cushioned upholstery, a wealth of seating for nine, plus a full rear bench with roto-molded base and sunpad! Storage is plentiful including a built-in aft locker, cavernous in-floor compartment, passenger glove box/cooler, side coaming panels and bow seating stowage. Enhanced teak transom platform, too!

And while this popular model offers all the extra creature comforts, you can naturally expect the same great riding hull and legendary wake characteristics befitting a Nautique.

Length without Platform	21'	(6.4m)
Length with Platform	22' 8 1/2"	(6.92m)
Beam	91"	(2.31m)

**Super Air**  
Nautique

15

Load 'em up! Aft storage beneath the super-sized sunpad conveniently holds your boards and gear out of sight!

Extra spacious swim platform is fully removable.

A really BIG, party-sized cockpit lets you bring the gang! Arena-style seating makes for great entertaining, with additional seating in the bow. Stretch out and enjoy the sumptuous cushioned sunpad!

# T

## **The All-New Super Air Nautique: The BIGGEST Ride Going!**

For 1999, there's an all-new force on the water for the biggest air and most comfortable ride out there! Super Air Nautique ... it's one incredible machine.

You want performance? You've got it, and then some, thanks to the range of power options including the beefy new PCM Python 500 Plus, an 8.2 Liter, 502 cubic inch powerhouse with multi-port fuel injection, 500 plus ft/lbs torque and a whopping 430 horsepower, making it the absolutely most powerful production inboard ever available for wakeboard or skiing application. When combined with Correct Craft's unique hull design, Flight Control Tower and Launch Control System capabilities, there's simply not a better ride in its class.

What's more, Super Air spoils you with its wide-open, arena-style seating and forward bow loungers, with loads of room for all your friends, plus lots of spacious storage for boards, skis and gear!

Length without Platform	21'	(6.4m)
Length with Platform	22'5"	(6.83m)
Beam	91"	(2.31m)
Draft	26"	(0.71m)
Fuel Tank Capacity	34 Gal.	(128 ltr.)
Ballast Tank Capacity	50 Gal.	(189 ltr.)
Approximate Weight	3,000 lbs.	(1,363 kg)
Height (waterline to top of FCT-erected)	83"	(2.1 m)
Height (waterline to top of FCT-folded)	58"	(1.47 m)
Lifting Rings (dist. between centers)	20' 1/2"	(6.1 m)

Note: Coast Guard Capacity (1250 lbs.) includes optional weight, including people, fuel, ballast, FCT

Nautique  
**Super Sport**

18

Top: Arena-style cockpit offers room for the whole family ... plus a whole lot more!  
 Right: Sunpad (with storage below) and large rear bench makes relaxation a real pleasure!

Extra deep floor storage with hinged lid accommodates more gear!

Rear teak swim platform is a skier's delight, with plenty of room for preparation!

## The Most Luxurious Sport Sedan on Water...

Ahhhhh ... it's Spacious. Rich. Comfortable. And oh! What an absolute thrill to drive!

Owning the Nautique Super Sport is comparable to the top-of-the-line 7-series BMW. It offers all the bells and whistles from a pure luxury perspective, coupled with all the handling characteristics that make it a sheer joy to drive.

In keeping with its industry leadership position, Correct Craft was the first tournament inboard manufacturer to offer a V-drive model. The rave reviews from families the world over has made this one of the best-selling models in the company's comprehensive line.

The cockpit features a generous double-wide sunpad with concealed storage compartment large enough to accommodate your skis, wakeboards and kneeboards, plus an additional in-floor locker. Extra-roomy arena-style seating is ideal for entertaining! Forward bow seating with sport-style grab rails is accessed via the all-new walk-through, with built-in storage compartments cleverly tucked beneath the seats.

Experience all the comfort of an I/O ... without sacrificing the performance and dependability of an inboard!

Length without Platform	21'	(6.4m)
Length with Platform	22'5"	(6.83m)
Beam	91"	(2.31m)
Draft	28"	(0.71m)
Fuel Tank Capacity	34 Gal.	(128 ltr.)
Ballast Tank Capacity	50 Gal.	(189 ltr.)
Approx. Weight	3,000 lbs.	(1,363 kg)
Height (waterline to top of FCT-erected)	83"	(2.1 m)
Height (waterline to top of FCT-folded)	58"	(1.47 m)
Lifting Rings (dist. between centers)	20' 1/2"	(6.1m)

Note: Coast Guard Capacity (1250 lbs.) includes all additional weight, including people, fuel, ballast, FCT

**Ski Nautique**  
Open Bow

Smooth, comfortable and very spacious...  
The Ski Nautique Open Bow!

Large in-floor insulated cooler is ideal for  
beverages and snacks!

Above: Forward bow seating offers room for romance!

## Built For Performance ... And Pleasure!

If you wanted all the design and resulting wake characteristics of the famous Ski Nautique, but needed a bit more seating capacity, the Ski Nautique Open Bow delivers!

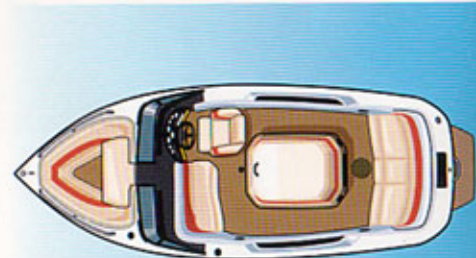

Featuring the same unique Total Surface Control hull and cockpit appointments as are incorporated on the Ski Nautique, the open bow version offers an additional plus: seating for two adults in the bow! Accessed via a walk-over windshield, the bow seating accommodates two in total comfort, with stainless grab handles located both starboard and port for additional safety while underway. Lockable storage is housed forward, while an extra-large, built-in beverage cooler is conveniently positioned in the floor.

Aft bench seating and cushioned motorbox shown.

Enjoy the  
best of both  
worlds!

AIR TIQUE

Stern bench is fully removable and designed to adjust, to accommodate an aftermarket ballast system.

Fun is the name of the game, and Air Tique delivers!

One of the most popular spots is the aft sunpad, with spacious storage below!

## **Hop Aboard: The Fun Has Just Begun!**

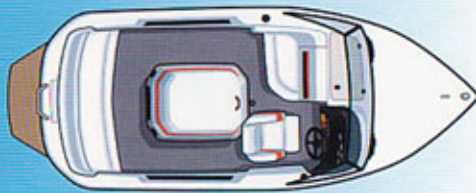

Want all the exciting packaging of the Pro Air Nautique in a more compact, 17'6" package? The Air Tique may be just the ticket to your family's fun on the water!

Sporting select design capabilities of its larger sibling, the Air Tique offers an extended 43" pylon for grabbing all those trick aerial maneuvers, plus a specially designed optional stern seat that lifts up to create a super sundeck ... while making efficient space for an aftermarket Fat Sac® or Launch Pad®!

And while it may be smaller in size, performance is definitely Big! The 260-hp PCM V-8 with 45 mph top speed turns out great conditions for skiing doubles or more, barefooting and all sorts of slope for incredible wakeboarding heights!

Take a spin at your local dealer ... and discover the beginning of endless adventure aboard the Air Tique!

## Nautique Color!

<b>N</b> Green	<b>N</b> Silver Cloud	<b>N</b> Burgundy	<b>N</b> Charcoal	<b>N</b> Blue	<b>N</b> Navy Blue
<b>N</b> Zephyr	<b>N</b> Black	<b>N</b> Natural	<b>N</b> Violet	<b>N</b> Red	<b>N</b> Teal

**Color Selection** Because of the inherent differences between gelcoat resins and printer inks, the colors shown here are only intended to represent the colors found in your Nautique's hull and vinyls.

Pleasurecraft Marine is the exclusive supplier of all Nautique powerplants and is the undisputed leader in inboard technology. Correct Craft has enjoyed a very long and successful relationship with PCM spanning a period of more than 20 years, working in harmony to create industry standards that continually push the edge of performance. For 1999, Correct Craft is proud to offer a comprehensive line of available PCM engines to drive its winning fleet.

PCM offers not only the long-standing, reliable Ford-based GT-40 multi-port fuel injection (M.F.I.) engines with their unique racing heads, but also the GM Gen 1 Plus-based PCM Apex, featuring the 350, M.F.I. model. Sure to cause a great deal of excitement this year, PCM has also introduced the most powerful production inboard ever available for watersports application ... the PCM Python 500 Plus, an 8.2 liter, 502 cubic inch M.F.I. engine that hisses with 430 horsepower and 500 plus ft/lbs of

torque! Along with all of the premium features for which PCM is known, Python is equipped with the exclusive Fuel Control Cell, which protects the sophisticated M.F.I. system from vapor lock and damage from contaminated fuel.

In addition, Correct Craft also offers a 351 carbureted engine that produces 260 hp, as well as a high-output 351 Ford-based carb. engine with 290 hp. The PCM 5.7 APEX is a M.F.I. engine based on GM's Gen 1 Plus version of the 5.7 liter high output model, with 320 hp and 375 foot-pounds of torque.

Other notable features of PCM products include the unique adjustable mounts, Power Plus transmission and an unprecedented Buyer Protection Plan that delivers all the reliability you could ask for, long after the original transaction is completed!
