

SINCE DAY ONE.

NAUTIQUE HAS ALWAYS BEEN PASSIONATE ABOUT
BUILDING THE HIGHEST QUALITY PRODUCTS AVAILABLE.

**HERE FOR YOU TODAY.
HERE FOR YOU TOMORROW.
THAT'S NAUTIQUE.**

Nautique 01

CELEBRATING 85 YEARS OF EXCELLENCE!

Since our company was first established in 1925, we have been passionate about building the highest quality products available. Nautique is known for delivering superior quality products, innovative technology and exceptional service experiences to our customers.

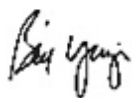

That same passion and drive for building first-class products still rings true today as we celebrate our 85th anniversary. Below are just a few of the many differences that continue to keep us way ahead of the competition:

INNOVATION – Our long list of industry firsts – including the first wakeboard tower - has truly revolutionized the watersports industry. Today, we are still the major innovation driver including this year's introduction of the all-new Ski Nautique 200.

HIGHEST QUALITY PRODUCTS – At Nautique, every boat comes with a 5-Year Transferable Warranty. This is true quality. We stand behind our boats like no other manufacturer can.

HIGHEST IN CUSTOMER SATISFACTION – Recently, Nautique received the J.D. Power and Associates award for the seventh time in a row. That's the voice of consumers just like you who are looking for both awesome customer service and boats that will stand the test of time. It's also an achievement that clearly separates us from the competition.

Our team invites you to learn even more about us either by visiting nautiques.com or by contacting your nearest Nautique dealer.

Bill Yeargin
President/CEO

"Delight yourself in the LORD and He will give you the desires of your heart." – Psalm 37:4 (NIV)

IN CUSTOMER SATISFACTION, NAUTIQUE RISES ABOVE ALL OTHERS.

Ranked "Highest in Customer Satisfaction with Ski and Wakeboard Boats, Seven Times in a Row."

—by J.D. Power and Associates™

Receiving this award seven times — every year since the study began in the marine industry — is not only impressive, it's unprecedented. Yet it's not surprising. Nautique boats are unmatched in customer satisfaction because, for 85 years, they have been an industry leader in performance, reliability and dependability. We see this award as a demonstration of the dedication, integrity and hard work of the entire worldwide Nautique dealer network as well as all of the Nautique employees. Year after year, in customer satisfaction, Nautique rises above all others.

Nautique received the highest customer satisfaction award among all ski and wakeboard boats in the proprietary J.D. Power and Associates 2008-2009, 2009-2010 and 2010-2011 Boat Competitive Information Study™, last in 2008. 2008 study based on 9,700 total responses measuring 4 brands and measuring opinions of customers who purchased a boat January 2007-May 2008. Includes wakeboard boats with highly specialized designs for use landing and water-skiing powered by gas inboard engines. Proprietary study results are based on experiences and perceptions of customers surveyed in September-December 2008. Your experiences may vary. jdpower.com

RECOGNIZED FOR EXCELLENCE, AGAIN AND AGAIN.

Once again, Nautique won the NMMA CSI Award which recognizes excellence in customer satisfaction in the Inboard Watersport Boats category.

2009
Excellence in Customer Satisfaction

Year in and year out, Nautique boats are the most highly praised inboards in the industry. Why? Because we keep our eyes on the prize: customer satisfaction. No other ski or wakeboard boat performs like a Nautique. No other boat delivers such an impeccable ride, with unsurpassed tracking and handling. No other boat can match the wake of a Nautique.

So when the Marine Industry CSI Awards program surveyed over 59,000 boat buyers about satisfaction with the boats and engines they purchased in the 2009 model year, Nautique clearly stood out.

WE GO TO GREAT LENGTHS TO GUARANTEE OUR BOATS.

The world's best inboards deserve the world's best warranty. Every Nautique features a 5-Year Transferable Warranty.* It includes free parts and labor on all qualified repairs for 5 years. There is no substitute for quality, and we stand behind the quality of our boats like no other manufacturer can. Because, at Nautique, our goal is nothing short of your complete satisfaction.

* Nautique warrants its boats under normal recreational use, not misuse or abuse. Visit your local Nautique dealer for a copy of the warranty in its entirety. See dealer for Coastal Edition package warranty.

INNOVATION.

THAT'S OUR PHILOSOPHY. THAT'S YOUR EDGE.

Each year, Nautique boats look better and better. For 2010, our boat line up includes the revolutionary Ski Nautique 200, the Crossover Nautique 226 and the saltwater-capable Coastal Edition package. Our list of new features includes the FCT4 tower, the exciting Nautique LINC System™, new gel coat options and more. All reflecting our philosophy of innovation, and giving you an edge.

Nautique LINC System

An industry-first, the new Nautique LINC System™ is the most forward-thinking and innovative digital helm display in watersports. It combines the functions of many analog gauges into a single, integrated platform. You can easily move between screens showing performance and engine information, ballast levels, GPS mapping, stereo controls and video display.

1

1. Flight Control Tower 4 (FCT4)

This new tower is our lowest-folding design ever. Two locking arms release the tower and allow the operator to easily fold it down near the windshield for convenient storage. It features aluminum construction, and can be painted with new custom colors that match the gel coat.

(excluding metal flake color options and the Crossover Nautique 211)

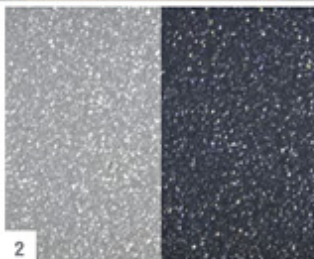

3. Coastal Edition

Enjoy the fun of boating and watersports with your Nautique on coastal waters. Available on the Super Air Nautique 210 and 230, and the Crossover Nautique 216V and 226, the Coastal Edition provides enhanced saltwater protection that is simple to maintain.

2. Metal Flake Gel Coat Colors

New for 2010 are innovative, metal flake gel coat color options, available on any Nautique model. Add a custom look to your new Nautique by choosing either metal flake gel coat in Silver or Gun Metal.

(excluding the Crossover Nautique 211 and Ski Nautique 200)

2

3

4

5

6

4. Painted Tower Options

Add a one-of-a-kind custom look to your new Nautique by choosing the new painted tower option. It's available in all gel coat colors and offered on FCT1, FCT3 and FCT4 towers.

(excluding Gun Metal Flake and Silver Metal Flake)

5. Ski Nautique 200

A legend is born. The all-new Ski Nautique 200, available in open or closed bow, features a hull that rides higher on the water, creating the softest wake in ski boat history. Driving, observing or skiing behind it, you'll discover the next revolution in ski boats – and the Nautique difference – on your very first pass.

6. Crossover Nautique 226

Wakeboarding, tubing, wakesurfing, cruising. Whatever your passion, the new Crossover Nautique 226 ensures that you'll always be flying first class. Its long transitional wake is ideal for all your favorite watersports, plus a perfect ride when it's time to cruise on open water. The spacious bow and wraparound lounge in the cockpit hold up to 15 of your closest water-loving friends and family.

ONLY A NAUTIQUE CAN LAUNCH YOU INTO UNCHARTED TERRITORY.

You are at the top of your game. Reaching heights beyond your imagination. And this is your boat – a Super Air Nautique – creating a wake unmatched by the competition. Behind a Super Air Nautique, you will go to heights unreachable behind other boats. That's the Nautique difference.

(Dry weight represents a boat equipped with all factory installed options, minus fuel and batteries.)

Like The Man Who Designed It, This Boat Is An Icon.

When we teamed up with Scott Byerly – the Godfather of wakeboarding and wakeskating – we didn't just build a boat. We built an icon – the Byerly Icon Edition 210. From the laser cut red LED grab rails to his signature inlaid on the transom, Scott Byerly was personally involved at every step of the design and build process. The distinctive Byerly logo is cut into the teak boarding platform, and branded on the gauges. It's embroidered on the upholstery and printed on the carpet. In short, this boat celebrates Scott Byerly's wakeboarding legacy and creativity.

Last year, wherever it went, the Byerly Icon Edition brought raves from hardcore wakeboarders. So in honor of Scott's birthday in 1973, we decided to build 73 more. The Byerly Icon Edition 210 is the most customized wakeboard boat ever. Only Nautique could offer it. And only a few dozen wakeboarders on the planet will join Scott Byerly and call it their own.

Some Companies Launch Hype. We Launch Legends.

Want to push the boundaries of wakeboarding and wakeskating? Get behind the Super Air Nautique 210. It's as original as the pros behind it, like Team Nautique riders Jeff McKee, Keith Lidberg and Brandon Thomas. The 210 pulls you to a rampy wake with a clean lip and long transitions. Takeoffs are smooth. The landing zone is wide. This year, its big-air features include standard ballast tanks and the optional FCT3 tower, available in black or new custom colors.

Describing the Super Air Nautique 210 as innovative is an understatement. Check out the rear-facing seat possibilities, hull-side graphics, MP3 inputs, new gauges, new optional transom stereo remote and our new metal flake gel coat color options, offered in silver and gun metal. The Super Air Nautique 210 is the original and for many the ultimate wakeboard boat.

1. REAR TRUNK STORAGE COMPARTMENTS. The lockable rear trunk storage areas create an additional 8.25 cu. ft. of storage.
2. REVERSIBLE COCKPIT SEATING. This configuration provides comfortable seating for optimal viewing of action behind the boat.
3. SPACIOUS BOW SEATING. Total seating for twelve, including plush, comfortable seats for adults to stretch out in the bow.
4. REVERSIBLE STERN SEAT. Seat can be situated for viewing toward the front of the boat or the back to watch wakeboarders.
5. SWIVEL BOARD RACKS. New style, easily rotates from outside to inside the boat for easy board storage and retrieval.
6. OBSERVER'S SEAT STORAGE. This area contains a subwoofer, amplifiers, and a removable 36-quart cooler.

(Dry weight represents a boat equipped with all factory installed options, minus fuel and batteries.)

Maximum Altitude. That's The Nautique Difference.

The Super Air Nautique 230 is the official boat for the prestigious Masters and the WWA Wakeboard National Championships. Why? Because the 230 creates the industry's absolute best wake – well defined, with a solid lip and pro-level pop, giving wakeboarders at all levels the ability to boost their moves to maximum altitude.

This year, ballast tanks are larger. The 230 also features the new FCT4 tower that folds down near windshield height for convenient garage storage. Plus a rear-facing seating option, full-blown sound system with remote, and MP3 inputs at your fingertips. The 230 - Team Edition package includes the new Nautique LINC System, the most advanced digital helm display available. Now you know why this boat pulls champions. Get behind it and you'll be reaching your highest potential.

1. SWIVEL BOARD RACKS. Designed to easily rotate from outside to inside the boat for easy board storage and retrieval.
2. REMOVABLE COOLER. Cold drinks are always within easy reach, thanks to this perfectly placed cooler.
3. SPACIOUS BOW SEATING. Total seating for sixteen, including plush, comfortable seats for adults to stretch out in the bow.
4. OBSERVER'S SEAT STORAGE. Additional storage under the observer's seat features plenty of room and is easy to access.
5. REAR TRUNK STORAGE COMPARTMENT. Hinged butterfly hatches make it easy to retrieve your boards, ropes and gear.
6. SMART POD HELM. The helm design features state-of-the-art instruments, including the revolutionary Smart Pod.

THE ONLY COMPANY WHO COULD REVOLUTIONIZE SKIING, JUST DID.

In all our ski boats, you can see the Nautique difference in quality and innovation on the showroom floor, and feel the difference in performance and handling on the water. Ski Nautique series boats produce a wake that is simply the softest and most passable. Other companies don't think you need a ski boat this good, to which we reply: **If it's not a Nautique, you better pass.**

SKI NAUTIQUE 200 - OPEN BOW // SKI NAUTIQUE 200 - CLOSED BOW // SKI NAUTIQUE 216

SKI NAUTIQUE

The Next Chapter In Ski Boat History.

Introducing the all-new Ski Nautique 200 - Open Bow. It's identical in weight, balance and wake to the new 200 - Closed Bow. Their common hull has greater lift, riding higher on the water, creating impeccable handling and the softest wake in ski boat history. You ride through it instead of over it, making the 200 the ideal ski boat for slalom skiers at all speeds and rope lengths.

The Ski Nautique 200 - Open Bow features comfortable bow seating and a tournament seat that can be stowed underneath the observer's seat for easy bow access. The all-new dash is positioned to create a superior field of vision, and the 200 - Team Edition features the revolutionary Nautique LINC System. Twin saddlebag compartments hold up to 6 sets of water skis and gear. The new Ski Nautique 200 - Open Bow is the next chapter in ski boat history. And only Nautique could write it.

The official boat of the:

The Ski Nautique 200 - Open Bow Team Edition, featured in gun metal flake, fury red and silver cloud. Team Nautique athletes: Jaret Llewellyn and Scot Ellis.

SKI NAUTIQUE

A New Legend Is Born.

The all-new Ski Nautique 200 - Closed Bow represents, without question, a revolution in hull design. It has a wider running surface than its predecessor, creating greater lift and the ultimate "skier's wake" that will be appreciated by skiers at all speeds and rope lengths. The unique hull design provides a softer, flatter wake with a smoother exit, allowing slalom skiers to effectively maintain ski edge, control and direction.

The wake is ideal for slalom and jump, with a gradual entry that has little effect on the ski. The exclusive Hydro-Gate™ softens the peaks of the rooster tail and wakes. And spray is greatly reduced and controlled. Trick skiers will reach new heights with the 200. It creates a clean, smooth table and a defined, single peak wake that lets the skier easily feel the top. Driving, observing or skiing behind it, you'll discover the next revolution in ski boats on your very first pass.

SKI NAUTIQUE CLOSED BOW 200

SKI NAUTIQUE

The Most Versatile Ski Boat For Your Family.

At Nautique, we feel the best way to improve our ski boats is to find new ways to make them even more enjoyable. That's why we built the incredibly versatile Ski Nautique 216. It's perfect for active families who enjoy slalom skiing as well as novice wakeboarding. Like all Nautique ski boats, it delivers quick acceleration and smooth direct-drive performance and handling.

You've got special friends and family who'll want to join you on the water, so we paid special attention to comfort and storage. The Ski Nautique 216 features a big 19-quart cooler built into the floor. A 17 cubic foot rear trunk holds skis, ropes and PFDs and is easily accessed from the cockpit or boarding platform. Optional swivel board racks store wakeboards and wakeskates up high and off the deck. Riding in the 216 and being pulled behind it, you'll discover this is the ultimate ski boat for your water-loving family.

A Family Favorite For All The Right Reasons.

When families needed a boat with more storage and more wake control, Nautique responded more than any other boat manufacturer. Today, the Crossover Nautique 211 is a family favorite, and priced to get your family on the water. The exclusive Fusion Hull and patented Hydro-Gate™ wake-control system combine to give you the ultimate family-friendly feature – the ability to shape the wake right from the helm. You can customize the wake according to each rider's preference and skill level, whether they're wakeboarding, wakeskating, wakesurfing, skiing, kneeboarding or tubing.

The Crossover Nautique 211 has the advanced technology it takes to launch wakeboarders to new heights and still meet the needs of everyone in your water-loving family. That's why we call the 211 the ultimate crossover boat ... and another example of the Nautique difference.

Only Nautique Could Build A Boat This Inspiring.

The award-winning Crossover Nautique 216V is elegant, comfortable and versatile, with sleek automotive-styling and family-friendly features bow to stern. Its new hull design produces a well-shaped wake with a clean lip so it's easy to ride. Best of all, the Nautique-exclusive Hydro-Gate™ lets you shape the wake for riding tubes and boards of all kinds.

Everywhere you look inside the 216V you'll see big ideas, artfully designed. Like the FCT3 tower with sweeping lines and easy fold-down design, plus rotating speakers, MP3 inputs and indigo-blue backlit gauges. Our new Nautique LINC System – the most advanced digital helm display ever – is featured on the 216V – Team Edition package. The Crossover Nautique 216V also has plenty of storage, a walk-thru design, and seats that transform into steps. Only Nautique could build a boat this inspiring, with a wake this easy-riding.

1. WASTE RECEPTACLE. Keep your boat clean and clutter-free, with this convenient walk-thru door access trash can.
2. ADVANCED HELM DESIGN. Features automotive-style instruments, MP3 input and indigo-blue backlighting.
3. FLIP-UP OBSERVER'S SEAT STORAGE. Store skis, ropes, drinks and more in this perfectly-located storage area.
4. TRANSOM REAR WALK-THRU. Provides ease of movement and flips over as an extra seat cushion.
5. BEACH ENTRY STEP/STORAGE. This step offers convenient bow entry from the beach, with anchor storage below.
6. POWER MANAGEMENT ACCESS. Convenient, illuminated access box houses breaker panels and battery switch.

(Dry weight represents boat weight with all factory-installed equipment, but not batteries)

Our Newest Crossover Lets You Fly First Class.

The all-new Crossover Nautique 226 is big on innovation, style, space and fun on the water. The automotive-inspired design is pure art. The spacious bow and wraparound lounge in the cockpit hold up to 15 of your closest water-loving friends and family. There's plenty of convenient storage, and with the new Stowable Observer's Seat, which offers forward or aft facing seat configurations, there is a multitude of seating possibilities. The options list is long and impressive, and includes the FCT3 tower in black or custom colors.

On the Crossover Nautique 226, handling is exceptional. The modified-V hull and superior handling let this boat slice through big water. Its long transitional wake is ideal for all your favorite watersports, plus a perfect ride when it's time to cruise on open water. Wakeboarding, tubing, wakesurfing, cruising. Whatever your passion, the Crossover Nautique 226 ensures that you'll always be flying first class.

The Crossover Nautique 226 Limited Edition, featured in vapor blue, onyx black and silver cloud.

COASTAL EDITION

Introducing Saltwater Protection At Its Finest.

Our new saltwater-capable package lets you enjoy the fun of boating and watersports with your Nautique on coastal waters. Nautique boats with the Coastal Edition is equipped to effectively resist saltwater corrosion while maintaining premium performance capabilities. Each model has top-of-the-line components designed for coastal use, including a sealed steering cable, stainless steel gas springs and steering tube with lubrication provision, zinc sacrificial anodes, and more. The Coastal Edition is available on the Super Air Nautique 210 and 230, and the Crossover Nautique 216V and 226.

The Most Powerful Partnership On The Water.

For over 30 years, Nautique has partnered with PCM® to drive the industry forward. As the recognized leader in providing customers with superior quality products, Nautique will settle for nothing less than providing you with the very best in propulsion systems. Our exclusive power provider, PCM, builds engines that meet the demanding needs of the watersports industry. With unbeatable performance, outstanding durability and more features and benefits than any other provider, PCM is the premium choice for inboard power.

Nautiques
by Current Craft

PCM
marine engines

ZR 409 6.0L V-8 409hp CAT

Pound for pound, the newly enhanced ZR 409 is the strongest engine PCM has ever built and it's also the most fuel efficient. Rated at 409hp, the ZR 409 is calibrated for the performance requirements of high-end watersports applications. It's the ultimate choice for premium power.

Excalibur 5.7L V-8 343hp

The EX-343 is designed for all watersports applications. It's a 5.7 liter workhorse rated at 343hp, with all the famous PCM features and benefits, including outstanding high and low-end performance.

Crusader Watersports Series

The new CWS engine is available on the Coastal Edition package. Special performance and durability features such as the Freshwater Cooling System, stainless steel components on the PCM mounting system and the bullet-proof components and hardware are designed to successfully withstand the rigors of saltwater use.

Green Engines from PCM®

PCM has the most comprehensive portfolio of emissions-friendly engines in the industry. Catanium™ CES is patent-pending catalyst technology that uses precious metals to create clean emissions and greatly reduce dangerous carbon monoxide gases. The new PCM Catanium™ Clean Emission System is available on all Nautique models, reducing emissions without diminishing performance.

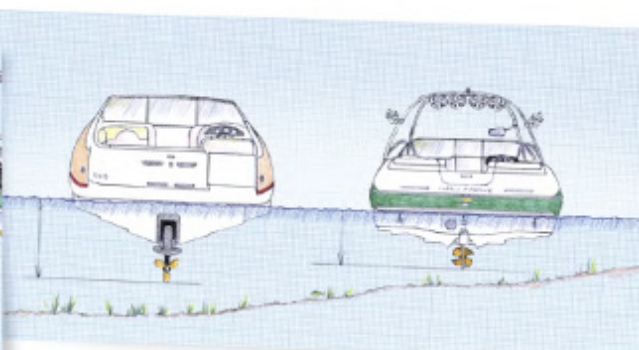

The Inboard Advantage.

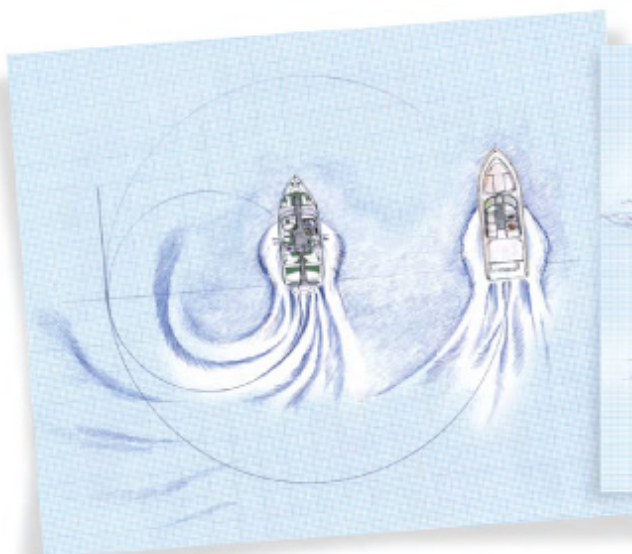

If you've never considered the advantages inboard or v-drive power have over sterndrive power, consider the following: in safety, draft, reliability, performance and handling, sterndrives fall far short. Sterndrives or I/Os, while popular in runabouts, use a lower drive unit that positions the propeller behind the swim platform, right next to the boarding ladder. Inboard or v-drive powered boats place the prop far forward of the transom. The benefits in peace of mind and performance make them far superior for safety and performance-conscious boaters who want to water ski and wakeboard.

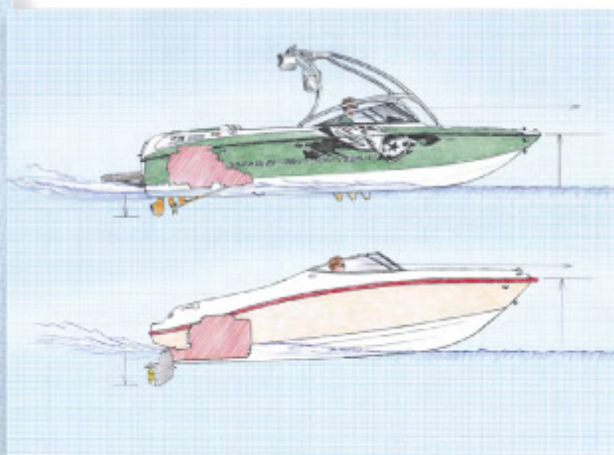

SAFETY.
The prop on an inboard or v-drive boat is located under the boat ahead of the rudder, allowing safer boarding from the swim platform.

DRAFT.
Because the draft of an inboard is less than a sterndrive, it can be taken into relatively shallow water.

PERFORMANCE.
Compared to sterndrives, inboard boats feature lower bow rise, faster planing, flatter wakes for skiing, ramper wakes for wakeboarding, enhanced power and superior tracking, handling and stability.

BOW RISE.
Stern drives require large, complex gear drive systems to transfer power to the prop, making maintenance more complicated and expensive.

Hydro-Gate. The Choice Is Yours.

Whether you like a small flat wake for skiing, a perfectly shaped trick table, or a large rampy wake for wakeboarding, the choice is yours. The Hydro-Gate™ is truly an all-in-one wake signature device. This innovation lets the driver tailor the running surface, providing you with the versatility of on-the-fly custom wake shapes. Nothing comes close to creating the best customizable wakes in the industry like Hydro-Gate.

Hydro-Gate.

The patented Hydro-Gate is a vertically positioned plate of stainless steel which controls the flow of water through the dispersion tunnel. The only one of its kind, the Hydro-Gate is the key feature that helps define the Optimal Surface Control (OSC) and Fusion hulls into the boats they are today. Meticulously placed lifting strakes, stepped reverse chines and a dispersion tunnel all work in conjunction with the Hydro-Gate.

SPORTSHIFT.

The *SPORTSHIFT™*, located within close reach of the driver's right hand, controls the Hydro-Gate. A simple mechanical push-pull cable connects the SPORTSHIFT and the Hydro-Gate. The operator can vary the engagement between slalom and wakeboard mode (1, 2, and 3 mode).

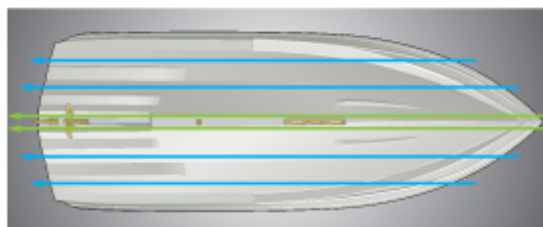

Navigate Through Rough Water Effortlessly

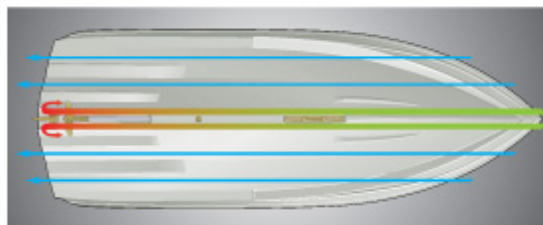

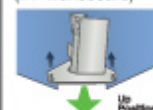

The Hydro-Gate minimizes the impact of rough water, allowing for consistent performance behind the boat. As the boat travels through choppy waters, the immediate application of the Hydro-Gate to the down position will reduce the occurrence of porpoising.

All-In-One Versatility

The change in position of the Hydro-Gate causes the water flowing through the dispersion tunnel to be redirected. In the down position, the Hydro-Gate causes additional lift at the transom. This minimizes the wake, effectively tailoring the wake shape and allows for a softer wake with a less defined trough for the slalom skier. Conversely, for trick skiing or wakeboarding the gate is placed in the up position. This allows the water to flow freely through the dispersion tunnel and reduces the lift at the transom. This allow the stern of the boat to ride deeper in the water, which increases the wake size and improves the wake shape.

Up Position.
(#1-Wakeboard)

Down Position.

Accessorize Your Ride.

We have an extensive list of options to choose from. Here are just a few options that are available on specific 2010 models.

FOR MORE INFORMATION ON YOUR STYLE OPTIONS LOG ON TO: NAUTIQUE.COM

1. Snap-In Crest Carpet

Our most elegant and durable snap-in floor carpet features a woven-in, 3-color design that matches the Super Air Griffin hull side graphic.

2. Keyless Ignition

Never worry about misplacing your keys. This keyless ignition allows you to keep your boat secure with your own customized code.

3. Swivel Board Racks

Make storing and retrieving your boards effortless with these rotating, stainless steel board racks that fit wakeboards and wakeskates.

4. Transom Underwater Docking Lights

LED lights mounted under the boarding platform use internal temperature sensing to automatically adjust light output when not being cooled by water. They add both function and elegance to your Nautique.

5. Polk Audio Tower Speakers

Our premium system offers unparalleled sound quality. It details a black and silver speaker grill for improved aesthetic value.

6. Heater with 3-Speed Defroster

Keep your hands, feet and body warm with this multi-directional heater.

7. Removable Lean Back

Add more aft facing comfort with this removable lean back.

8. Walk-Thru Composite Air Dam

This walk-thru door allows you to effortlessly travel to and from the bow of the boat.

9. Transom Stereo Remote

This easy-to-use stereo remote allows you to control your music right from the transom of your boat.

10

13

7

11

13. Pull-Out Cleats

Our Nautique branded custom pull-out cleats provide convenient locations to tie off your boat, both forward and aft.

14. Launch Control System

This wake-altering system allows you to fill and drain your tank in less than four minutes. The Helm area provides you with Port, Starboard and Belly ballast tank gauges that are conveniently located for easy viewing.

15. Removable Table

This removable table makes entertaining in your boat both convenient and comfortable.

8

10. USB and MP3 Helm Deck

The USB and MP3 inputs put you in total control of music using your MP3 player, right at the helm.

11. Fresh Water Flush

This easy-to-use and conveniently located fresh water flush allows you to keep your engine free of contaminants.

12. Clarion Hand Held Stereo Remote

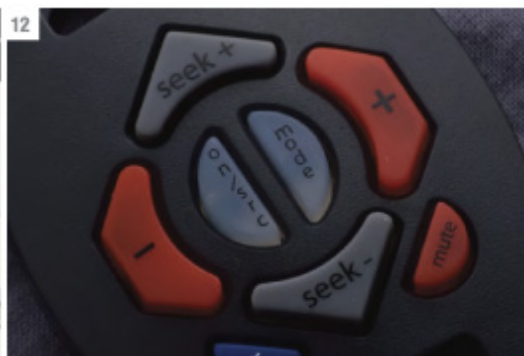

Control your music from up to 50 feet away with this waterproof, wireless remote control.

BE RESPONSIBLE. WSIA Watersports Responsibility Code

Be aware that there are elements of risk in boating, skiing and riding that common sense and personal awareness can help reduce. Know your ability level and stay within it. TO INCREASE YOUR ENJOYMENT OF THE SPORT FOLLOW THE "WATERSPORTS RESPONSIBILITY CODE":

IT IS YOUR RESPONSIBILITY TO:

- Familiarize yourself with all applicable laws, the risks inherent in the sport and the proper use of equipment
- Know the waterways where you will be skiing or riding
- Do not ski or ride in shallow water, near shore, docks, pilings, swimmers or other watercraft
- Always have a person other than the boat driver as an observer and agree on hand signals before starting
- Always wear a U.S. Coast Guard Type II (PFD) vest
- Read your owner's manual and inspect your equipment prior to use
- Ski or ride within your limits. Always ski or ride in control and at speeds appropriate for your ability
- Always turn ignition off when anyone is near watercraft power drive unit
- Carbon Monoxide (CO) poisoning from engine exhaust may cause injury or death. Never "platform drag" or touch a swim platform while the engine is running
- Do not operate watercraft, ski or ride under the influence of alcohol or drugs
